Balige, Toba, Sumatera Utara, Indonesia

I'm an Informatics student at Del Institute of Technology who is interested and enthusiastic about developing my skills in the field of Information and Technology. I have an interest in programming especially in frontend web development. I'm excited about learning new things, trying new challenges, and also solving existing problems. I'm a person who can work together as a team and can be relied on. I'm also active in the organization and ready to contribute to a communicative work environment.
